

WHAT IS YOUR CHILD DOING THIS SUMMER?

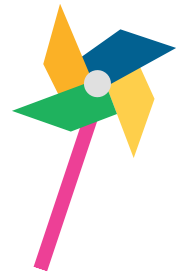

Pediatric Interactions Monkey/Gorilla Group is a pre-preschool group within a supportive environment for a child's first time away from parents in a structured program. The Orangutan Group is an activity-led social group for older kiddos that are looking to meet new friends and work on social skills.

All of our groups are facilitated by a Speech/Language Pathologist(s).

- Preschool alternative or addition to an early childhood or preschool class (Target ages: 2-5 year old children)
- Providing a supportive environment for a child's first time away from parents in a structured program
- Successful transitioning to other programs or participation in community groups (e.g., library story time)
- Opportunities to socialize and use language with other kids
- Working towards specific communication goals
- Implementation of individualized supports (such as including sensory, visual, and modification of activities)
- Encouraging carryover of activities at home and providing educational materials for families
